Vom Feuer Precision Rifle (Fixed)

How to install ?

1-Start OpenIV, navigate to or search "mpsum2" dlcpack /update/x64/dlcpacks/mpsum2

2-activate edit mode and when the blue pop up comes out, copy the content to mods folder, it's an automatic process, every change must be done in mods folder, otherwise you might risk to damage your game files, i am not responsible for any damage.

3-weaponarchetypes is to be replaced in dlc.rpf/common/data while the rest goes in ai

4-ydr and ytd files are to be placed in x64/models/cdimages/weapons.rpf
